PROFESSIONAL SUMMARY

Versatile technology professional combining 25+ years of Linux administration, network support, VoIP engineering, and high-volume data-entry proficiency for remote roles.

CORE CAPABILITIES

Linux Systems Administration: Administered heterogeneous Debian, Ubuntu, Arch, Manjaro, and Linux Mint environments supporting teams up to 15 users; engineered automated Bash-scripted backups and Git-based configuration management; sustained 99%+ uptime and cut downtime 40% through proactive monitoring.

Virtualization & Storage Engineering: Deployed and secured Xen (Qubes OS), VirtualBox, and KVM environments with VM-isolation architecture and GPU passthrough; designed Btrfs-on-LVM-on-LUKS storage across multi-tier volume-group arrays (15TB+); built Timeshift-based disaster-recovery workflows.

Security & Compliance: Maintained DoD-cleared network infrastructure (SATCOM/crypto maintenance, OpSec protocols) during a combat-zone deployment; applied LUKS full-disk encryption and VM-isolation principles; hold CompTIA Security+.

Network & VoIP Engineering: Configured Cisco IOS routing and switching (VLANs, ACLs, T1/Frame Relay circuits); migrated legacy Asterisk telephony to a ground-up FreeSWITCH PBX, cutting telephony costs 60%; automated SIP phone provisioning via PXE/TFTP for 40+ endpoints.

Programming & DevOps Automation: Scripting and automation in Bash, Python, and Go (Boot.dev); Docker containerization and Git/GitLab workflows; C, C++, and Java coursework; building toward infrastructure-as-code and CI/CD fundamentals.

Windows & Directory Services: Supported Windows XP through 11 and Server 2003--2022; oversaw Active Directory accounts (onboarding, offboarding, password resets); standardized workstation imaging, reducing deployment time from 4 hours to 30 minutes.

IT Support & Remote Assistance: Resolved 40+ daily tickets via phone, chat, and TeamViewer, RDP, VNC, and SSH remote sessions at 85%+ satisfaction; diagnosed hardware failures across Dell server, workstation, and laptop lines; mentored junior agents on escalation procedures as a Tier 2/3 resource.

Data Entry & Records Processing: High-volume keyboard entry at 60--80 WPM; USPS address-image coding at under 4% error rate; reconciled order-management and transportation-manifest records; operated AS/400 (IBM iSeries) systems; proficient in Microsoft Office, Google Workspace, and LibreOffice.

QUALIFICATIONS

Active: Linux Essentials --- Linux Professional Institute, 2023 • CompTIA Security+ --- 2010 • CompTIA A+ --- 2007

In Progress: Linux Foundation Certified System Administrator (LFCS) • Linux Foundation Certified Engineer (LFCE) --- Planned

Historical: Cisco Certified Network Administrator (CCNA) --- 2000 • Dell Tier 2 Hardware Certification --- 2008 • AT&T Provisional Technical Engineer --- 2001 • Clearwire VoIP Subject Matter Expert (SME) --- 2007 • Clearwire Email Specialist --- 2007 • CIW Web Foundations Associate • CIW Web Languages: JavaScript Fundamentals

WORK HISTORY

Uber Technologies --- Independent Contractor, Food Delivery (Uber Eats) & Rideshare Driving *Sep 2023--Present*

Harry and David (1-800-Flowers.com, Inc.), Medford, OR --- Seasonal Data Entry Associate *Seasonally, Sep 2023--Dec 2025*

Superior Service Transport, Salt Lake City, UT --- Driver Check-in Clerk / Scheduling (Contract) *Apr--Jul 2023*

Self-Employed --- Family Caregiver (Unpaid, Room & Board --- Household & Health Management), Salt Lake City, UT *Feb 2014--Feb 2023*

RidgeCrest Herbals, Salt Lake City, UT --- Linux System Administrator & VoIP Administrator *May 2012--Feb 2014*

ITT Systems (DoD Contractor), Afghanistan --- Network Administrator *Sep 2009--May 2010*

Teleperformance USA (Contract --- Dell, Clearwire, Cox), Salt Lake City, UT --- Hardware Support Technician, Dell Tier 2 Contract *May 2005--Oct 2008*
United States Postal Service, Salt Lake City, UT --- Data Conversion Operator *Dec 2001--Jan 2004*
Convergys (Contract --- AT&T), Murray, UT --- Provisional Technical Engineer *Apr 2000--Nov 2001*
Estrella Mountain Community College, Avondale, AZ --- Computer Lab Technician, Student Worker *Sep 1997--Dec 1999*
Del Webb Corporation, Sun City West, AZ --- Accounting Assistant, High School Internship *Oct 1996--Apr 1997*

TECHNICAL PROJECTS

Qubes OS Security Research Platform (System76 Bonobo WS) *2024--Present*
Xen-based security hypervisor, VM-isolation architecture, Whonix/Tor privacy research
Advanced Storage Architecture Design (Desktop Workstation) *In Planning*
Btrfs-on-LVM-on-LUKS multi-tier storage design across a 15TB+ array
Multi-System Administration Portfolio *Ongoing*
Arch-based workstation and Qubes OS platform administration, Git/GitLab workflows, contributions to the MegaMek/MekHQ open-source project, and assisted Windows-to-Linux migrations for personal contacts
MyMind Second Brain (Personal Knowledge Management System) *2026--Present*
Fully automated, agent-driven second-brain vault combining GTD task workflow, PARA file organization, and Zettelkasten note-linking; built and maintained through AI-agent automation with an encrypted sensitive-data handling pipeline

EDUCATION

Salt Lake Community College, Salt Lake City, UT --- Associate of Science, Computer Science *Jan 2001--Aug 2004*
Introduction to Computer Science II, Unix Internals, Computer Architecture, Software Engineering, Data Communications & Networking, Database Management, Java I
Salt Lake Community College, Salt Lake City, UT --- Certificate of Proficiency, Linux System Administration *Sep 2016--May 2018*
Introduction to Linux, Linux System Administration I & II, Certified Ethical Hacker coursework (2018)
Estrella Mountain Community College, Avondale, AZ --- Certificate of Completion, Networking Administration: Cisco *Sep 1997--Dec 1999*
Cisco Networking Fundamentals, Cisco Advanced Routing & Switching, Cisco Net Router Tech, Cisco Project-Based Learning, C Programming I, Computer Maintenance I: A+ Prep
Boot.dev --- Full-Stack Backend Development Program *Aug 2025--Present*
Python and Linux completed April 2026 (Bookbot, Webflyx guided projects); OOP, Functional Programming, Data Structures & Algorithms in progress; upcoming: Go, HTTP, Docker, SQL, Pub/Sub, AWS, CI/CD, Kubernetes

References available upon request | Open to remote work opportunities nationwide | Available for temp, contract, or permanent positions
Based in Medford, OR --- open to on-site work from Phoenix through Seven Feathers to Klamath Falls, OR, or fully remote (remote preferred).
